

biomega

A few engaged food science engineers have the mission to ease conditions of life in the poorest regions of western Africa by producing special commodities for the food and cosmetic sectors.

Our longtime experiences in foodstuff and cosmetics allow us to produce high quality products by working closely, directly and co-operative with the rural communities and our African partner companies.

For our clients we offer customized products and solutions for their needs and requirements. We provide professional advisory service concerning questions of food regulatory, technical details and marketing.

heart-warming start in the winter time:

1 tsp. ground fresh ginger (2-3g)
Juice of ¼ lemon (15ml) and lemon zests
2-3 tsp. sugar (10-15g)
Add 1 cup hot water (300ml)
Brew it for 5 min. Sieve it.
Add 2 tsp. baobab fruit pulp (6g)
Add 1 pinch muscat

enjoy!
